PROFESSIONAL SUMMARY

Software Engineer with experience in web application development, system enhancement, and e-commerce platforms. Strong background in building scalable features, improving system performance, and collaborating across teams to deliver production-ready solutions. Experienced in .NET, JavaScript, Shopify (Liquid), and modern frontend development.

WORK EXPERIENCE

Amdocs Philippines Inc.
Software Engineer (Full time)

Pasig City
June 2024-February 2026

- Delivered end-to-end full-stack development enhancement owning architecture, development, testing, and development, resulting in a 15% increase in user productivity and streamlined operations
- Designed and implemented backend processes using .NET, C#, SQL, and JavaScript, continuously refining technical implementations to match evolving business requirements.
- Executed 5 production deployments throughout 2025 which included post deployment support for critical releases, and supports that lasted 6 months due to scale and impact.
- Improved system stability and performance by reducing discrepancies and downtime by 9% through structured testing, debugging, and validation in simulated VM environments, while collaborating across 4 cross-functional project teams.

Able Phils Retail Corporation
Shopify Developer (Freelance)

Remote
August 2025-February 2026

- Translated design mockups into fully responsive Shopify themes using Liquid, HTML, CSS, and JavaScript, ensuring cross-device compatibility and consistent UI implementation
- Developed custom Shopify features and reusable UI components that enhanced store usability and increased conversion rates by 20%.
- Optimized site performance by 20% and implemented app integrations to streamline client operations
- Tested and evaluated third-party Shopify applications (e.g., Bundler, Microsoft Clarity) and implemented inventory, merchandising, and marketing workflows to extend store functionality and support data-driven optimization.

I-Bridge Systems Philippines Inc.
Website Developer (Intern)

Pasig City
August-November, 2022

- Assisted in modernizing legacy systems by improving UI structure and backend code readability
- Applied coding best practices to improve maintainability of existing systems
- Authored technical documentation to improve knowledge transfer and codebase understanding

TECHNICAL SKILLS

Languages: C#, JavaScript, Python, Java, PHP, Liquid, HTML, CSS
Frameworks & Tools: .NET Framework, Git, Visual Studio, REST APIs, Virtual Machines, AWS, AI
Web Technologies: Shopify Theme Development, Responsive Design, Frontend UI Architecture
Concepts: System Design Fundamentals, Code Maintainability, Performance Optimization, Version Control
Core Competencies: Leadership experience, crisis management, service-driven, interpersonal skills, resourceful, detail-oriented, receptive, committed, adaptive, and open-minded

EDUCATION

De La Salle University
BS Computer Science With Specialization in Software Technology

Taft, Manila
October, 2023

- Most Outstanding Thesis Award
- Consistent Dean's Lister
- Gawad Lasalyano Service Merit Award

Thesis Work

Title: **Developing A 2D Roguelike Game For Learning Philippine Mythical Creatures 2022-2023**

- Collaborated with a team of developers to design and implement the interaction system of a serious game, ensuring intuitive and engaging user experiences.
- Developed and maintained a quiz-based combat system, integrating educational content into gameplay while ensuring responsiveness, accuracy, and balanced difficulty.
